***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Clendening(5,717,796).

With regards to claims 1, 11, Clendening teaches a method for establishing communications the method comprising:

Automatically provisioning a primary circuit for communications between a first node and a second node in a communications network, and automatically provisioning a protection circuit for communications between the first node and the second node.(working and protection paths are automatically provided for communications between site A and B)

***Allowable Subject Matter***

Claims 21-30 are allowed.

Claims 2-10, 12-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
